‘Striving for excellence in education for a better tomorrow’

Mission

Striving for excellence in education for a better tomorrow

The College- Education for a World of Difference.

Unity College is an unaided English medium, co-educational College established in the year 1987 by a registered philanthropic society, The Tauheedul Muslimeen Trust Foundation Society, Lucknow.

The College has a history of excellence in education and service to mankind. The College prepares the students to take up future challenges with utmost confidence.

Unity College today has about 2000 students, about 90 staff members and classes from Lower Nursery to Class XII. It is affiliated with the Council for the Indian School Certificate Examinations, New Delhi.

Bringing innovation to Education, Unity College has adopted Student Centered Teaching

especially at the Pre-Primary and Primary levels. Student-centered learning puts students' interests first, acknowledging student voice as central to the learning experience. It helps in recognizing individual differences in learners. The College has also adopted modern teaching methods to promote e-learning and enhancing the teaching-learning experience. We aim to innovatively use technology to improve learning outcomes through interactive learning for k-12 segment. These technological updates and smart classes empower the students and make them less passive.

A well planned school infrastructure plays a budding hand in creating an effective teaching and learning environment. In order to avoid overcrowded and stressful ambience for the tiny tots which can affect their all-inclusive development, classrooms are furnished with proper floor coverings, painting, kid-friendly furniture, new resource cabinets with plentiful store of teaching resources and well established individual class libraries.

Since school is a student's second home, infrastructure becomes a major factor behind how a child responds to his/her overall growth. Hence, we always give our best in creating a favourable environment to ensure an effective learning platform to our kids from their very foundation years.

Our Islamic learning is based on the values of the Qur'an in order to build a "hands on" Quranic Community. Our goal is for each child to live Islam as taught by the Qur'an.

Medium of Instruction

Unity College conducts all its academic activities in English only. Apart from being the medium of instruction, English is encouraged at most other levels of oration and writing.

"We need diversity

of thought in the world

to face the new challenges."
